

Mohammed Alshareef
Transportation and Logistics Graduate Student
Program: Logistics and Supply Chain System

Hometown: Jeddah (Saudi Arabia)

What are some of your hobbies? I love reading, cooking, traveling, fishing, swimming, and diving.

What are some of your past/current research interests? My research interest in maritime transportation, port operation, freight transportation, multimodal transportation.

What honors or awards have you accomplished?

I am a member at Delta Mu Delta Honor Society – Gamma Nu.

How did you become interested in your field of study? My father advised me to study my bachelor degree in Ports and Maritime Transportation which was a unique program in King Abdulaziz University. Also, I was one of six students who graduated as a first group from this major. In addition, because I love sea, swimming and diving I became more interesting in this field.

What would be your dream job?

My dream job to be an assistant professor because I love to teach students and give them new knowledge that will make them success in the life. Not only teach them the knowledge but also the respect. I believe that one word from a person can change many things in others' lives.

What are your goals or future plans? I want to go back to Saudi Arabia and work as an assistant professor at King Abdulaziz University. Also, I believe that my study will not only develop education, but also the society, workers, and ultimately the nation.
