# COMPASS

## FMCSA Portal Access for Companies

March 2009

U.S. Department of Transportation  
Federal Motor Carrier Safety Administration

**Office of Information Technology**  
Federal Motor Carrier Safety Administration

## Discussion Points

- ▶ What is FMCSA's COMPASS Program?
- ▶ Expected Benefits for Industry
- ▶ FMCSA Portal Access for Companies
  - Overview of Functionality
  - Preview of the Portal
  - Detailed Functionality Review
  - Training and Account Registration
  - What to Expect Next

# COMPASS: Program Description

COMPASS is a comprehensive overhaul of the way FMCSA and its partners collect, manage, and convey safety information.

- ▶ Will leverage new technology to transform the way FMCSA does business by integrating the Agency's information technologies with its business processes and practices
- ▶ A multi-year program with multiple releases of functionality to different user groups
- ▶ A collaborative effort with stakeholders

## Expected Benefits for Industry

- ▶ **One location** to retrieve verifiable information that is protected from unauthorized access and alteration
- ▶ **Enhanced access** to carrier safety and operational data through the FMCSA Portal for authorized users
- ▶ **Automated** alerts sent to the right person for action
- ▶ Increased **self-sufficiency** for users (e.g., online help and account management)

# FMCSA Portal Access for Companies

# Portal Access Functionality/Benefits for Companies

- ▶ Authorized users have access to real-time company information including crashes, inspections, reviews, and cases closed with enforcement
  - Companies control who can/cannot access their information
  - Companies can now print or download Company Safety Profiles on an as-needed basis at no charge
  - Automated password reset and account unlock
- ▶ Authorized users have access to A&I, DataQs, and/or NCCDB through the Portal without additional login
  - All users who are currently registered users of A&I, DataQs, and/or NCCDB will need to re-register for access to these systems via the Portal
  - Company officials are automatically granted access
- ▶ Context-sensitive online help is available, including access to training materials, and user feedback tools

# Preview—Portal Access for Companies

- ▶ This screenshot shows the look-and-feel of the FMCSA Portal for companies

# Home Page Portlets

- The Company home page provides access to functionality that allows a company to view its information and activity with FMCSA
- Portlets include Alerts, Correspondence, Company Activity, Company Information, Tasks, Available FMCSA Systems and Public Links
- Each portlet located on the Company home page can be minimized or maximized

The screenshot shows the FMCSA Portal interface. At the top, there is a header with the FMCSA logo and the COMPASS logo. Below the header, there is a navigation bar with links for Home, Accounts, Reports, Feedback, and Help. The main content area is divided into several portlets:

- Available FMCSA Systems:** Contains links for A & I and NCCDB. A red circle highlights the minimize/maximize buttons in the portlet's title bar.
- Alerts:** Displays an alert list with details about a contract authority revocation and mailing address issues.
- Public Links:** Includes a "Quick Browse" section with a dropdown menu and a "Go" button, and a "Url:" section with a text input field and a "Go" button.
- Company Activity:** Features a "Summary" section with tabs for Crashes, Inspections, Reviews, and Closed Enf, and a search filter for "LAST 24 HOURS".
- Company Information:** Contains a "USDOT Registration" section with a table for registration details and a "Cargo Tank Facility" section for hazardous materials.

## Training and Account Registration for Portal Access

- ▶ Self-paced training is highly recommended for both the Company Official and Company Access roles
- ▶ By the time company users register for a Portal account, your company should have designated a Company Official to administer access to company safety records
  - This Company Official will process account registration requests online

## Requesting an Account

- ▶ An FMCSA Company Official in possession of their USDOT Number PIN may request a Portal account as the authorizing official for their company's FMCSA data
  - Company Officials are responsible for approving or denying account request for access to the FMCSA data stored under their company's USDOT Number
- ▶ Any employee (or affiliate) of a company (that is registered with the FMCSA) may request a Portal account as a Company User
  - Company Users can request access to the FMCSA data stored under their company's USDOT Number(s)
- ▶ Users do not need to be actual employees of a company, but must be an individual who the company official will approve access rights

# FMCSA Portal Account Requests Overview

- All Company Officials may request a Portal account via the FMCSA Portal login page
