FARGO, NORTH DAKOTA 58105**

JANUARY 1990

PREFACE

This is the first time a directory of this type has been published by the Upper Great Plains Transportation Institute. It is being published in an attempt to fill many needs. Shippers can use it to determine what their choices are in the market. The motor carrier industry can use it to track service in the state and identify opportunities. It should also be useful for economic development. New firms would be able to identify sources of transportation for their needs.

The information contained herein has been developed from the Interstate Commerce Commission and North Dakota Public Service Commission lists of certificated carriers. Firms on that list were mailed a postcard during the spring of 1989 asking for some additional information about their firm including types of authority held and types of service provided. A special thanks goes to the firms who completed this questionnaire. The information gained from that survey has been incorporated into this directory. Not all firms, however, returned the postcard. This means that there is more information listed for some firms than for others. In addition, some firms indicated that they did not want to be part of this directory, so they are omitted from these pages.

Another postcard survey is planned for the future. We would like to add additional information to this directory and fill in the current voids. If you have any suggestions on how we can improve this directory, or have found an error, please call or write. This directory is meant to serve your needs. Please help us identify what those needs are.

Thank you for your interest in the motor carrier industry in North Dakota!
