
Carrier Self Assessment in Safety Management Subcommittee Update

Gene Bergoffen
Roger Clarke

January 12, 2005

Subcommittee Scope

- Formal certification processes, including ISO and other formal standards programs
 - Voluntary Programs
 - Industry-promulgated Best Practices
 - Safety Accreditation
 - Benchmarking
 - Insurance Evaluation
-

Initial Charge to Subcommittee

- Examine existing CMV certification and “recommended practices” programs
 - Identify major common elements and protocols
 - Critically assess evidence of crash-reduction effectiveness
 - Identify research needed to demonstrate values of programs
-

Planned First Steps

- Set up Clearinghouse of information on programs
 - Informational request to organizations instituting programs and evaluating researchers
 - Program review to identify common elements
 - Focus on identifying and quantifying objectives and application of common evaluation scheme
 - Coordination with Australian and Canadian efforts
 - Core group established. Other interested participants welcome
-
